

WILCAP COMPANY

EARLY HEMI FRONT COVERS

ENGINE APPLICATION YEARS/CID:	V8 CHRYSLER 54-58, DODGE 53-58
MATERIALS USED / MACHINING METHODS	356 CAST ALUMINUM, CNC MACHINED, ALLOY FASTENERS
ADDITIONAL PARTS NEEDED:	LOCATIG PINS, GASKET, SEAL, PUMP DRIVE.

NOTES; The Wilcap Early Hemi front covers are available as standard or with the additional fuel pump boss to allow for the mounting and driving of a fuel pump. Pump drives are available for a number of different fuel pumps or we can machine a custom drive for your application. THE STANDARD COVER IS DESIGNED FOR USE WITH STOCK HEMI WATER PUMP. They can be modified for use with the Chevrolet Big Block water pump. Machining of the pump mounting holes is an additional charge. Seal and gasket is additional. Comes with bolts (either socket head cap screws or standard cap screws, please specify when ordering).
